

# DATA ANALYTICS AND IMPROPER PAYMENTS

Nick Purse, JD, CIA

Utah Office of the State Auditor (OSA)

Mountain & Plains Intergovernmental Forum

August 30-31, 2017

# INTRODUCTION

- ▶ Question: How would you identify a specific transaction pattern for one particular SNAP recipient from among hundreds of millions of SNAP EBT card transactions with the following parameters?
  - ▶ Minimum of two transactions in a rolling, five-minute period
  - ▶ Same vendor
  - ▶ Transactions must total an even dollar amount
  - ▶ Cumulative transaction amount must not equal total EBT balance

# INTRODUCTION

Source: PA No. 15-04 A Performance Audit of Data Analytics Techniques to Detect SNAP Abuse, OSA 45-46 (January 5, 2016).

# INTRODUCTION

- ▶ Overview of data analytics and improper payments
- ▶ Introduction to available data analytics tools
- ▶ Examination and examples of core data analytics techniques

# Data Analytics

- ▶ Data analytics is the process by which large amounts of data are reviewed to discover anomalies, patterns, commonalities, or other user-defined metrics to facilitate increased compliance, greater efficiency, or additional understanding of a particular government program.

# Improper Payments: Definition

- ▶ What makes a payment “improper”?
  - ▶ Criteria: What does applicable law, rule, or policy say?

# Improper Payments: Indicators

- ▶ Where do you begin?

Source: Photo by Ethan Sykes on Unsplash.

# Improper Payments: FREQUENCY

- ▶ Totals across rolling periods of time
- ▶ Example: Rapid successive SNAP EBT transactions

Source: Photo by Álvaro Bernal on Unsplash.

Transaction	Time	Amount
1	12:00	\$10.00
2	12:01	\$5.00
3	12:07	\$3.00
4	12:09	\$10.00
5	12:10	\$1.00
6	12:14	\$6.00
7	12:35	\$5.00

# Improper Payments: FREQUENCY

Source: Photo by Álvaro Bernal on Unsplash.

- ▶ Totals across rolling periods of time
- ▶ Example: Rapid successive SNAP EBT transactions

Transaction		Time	Amount	Amount	Amount	Amount
1	→	12:00	\$10.00	\$10.00	\$10.00	\$10.00
2	×	12:01	\$5.00	\$5.00	\$5.00	\$5.00
3	→	12:07	\$3.00	\$3.00	\$3.00	\$3.00
4	→	12:09	\$10.00	\$10.00	\$10.00	\$10.00
5	→	12:10	\$1.00	\$1.00	\$1.00	\$1.00
6	×	12:14	\$6.00	\$6.00	\$6.00	\$6.00
7	×	12:35	\$5.00	\$5.00	\$5.00	\$5.00

# Improper Payments: FREQUENCY

Source: Photo by Álvaro Bernal on Unsplash.

- ▶ Totals across rolling periods of time
- ▶ Example: Rapid successive SNAP EBT transactions

Transaction	Time	Amount
1	12:00	\$10.00
2	12:01	\$5.00
3	12:07	\$3.00
4	12:09	\$10.00
5	12:10	\$1.00
6	12:14	\$6.00
7	12:35	\$5.00

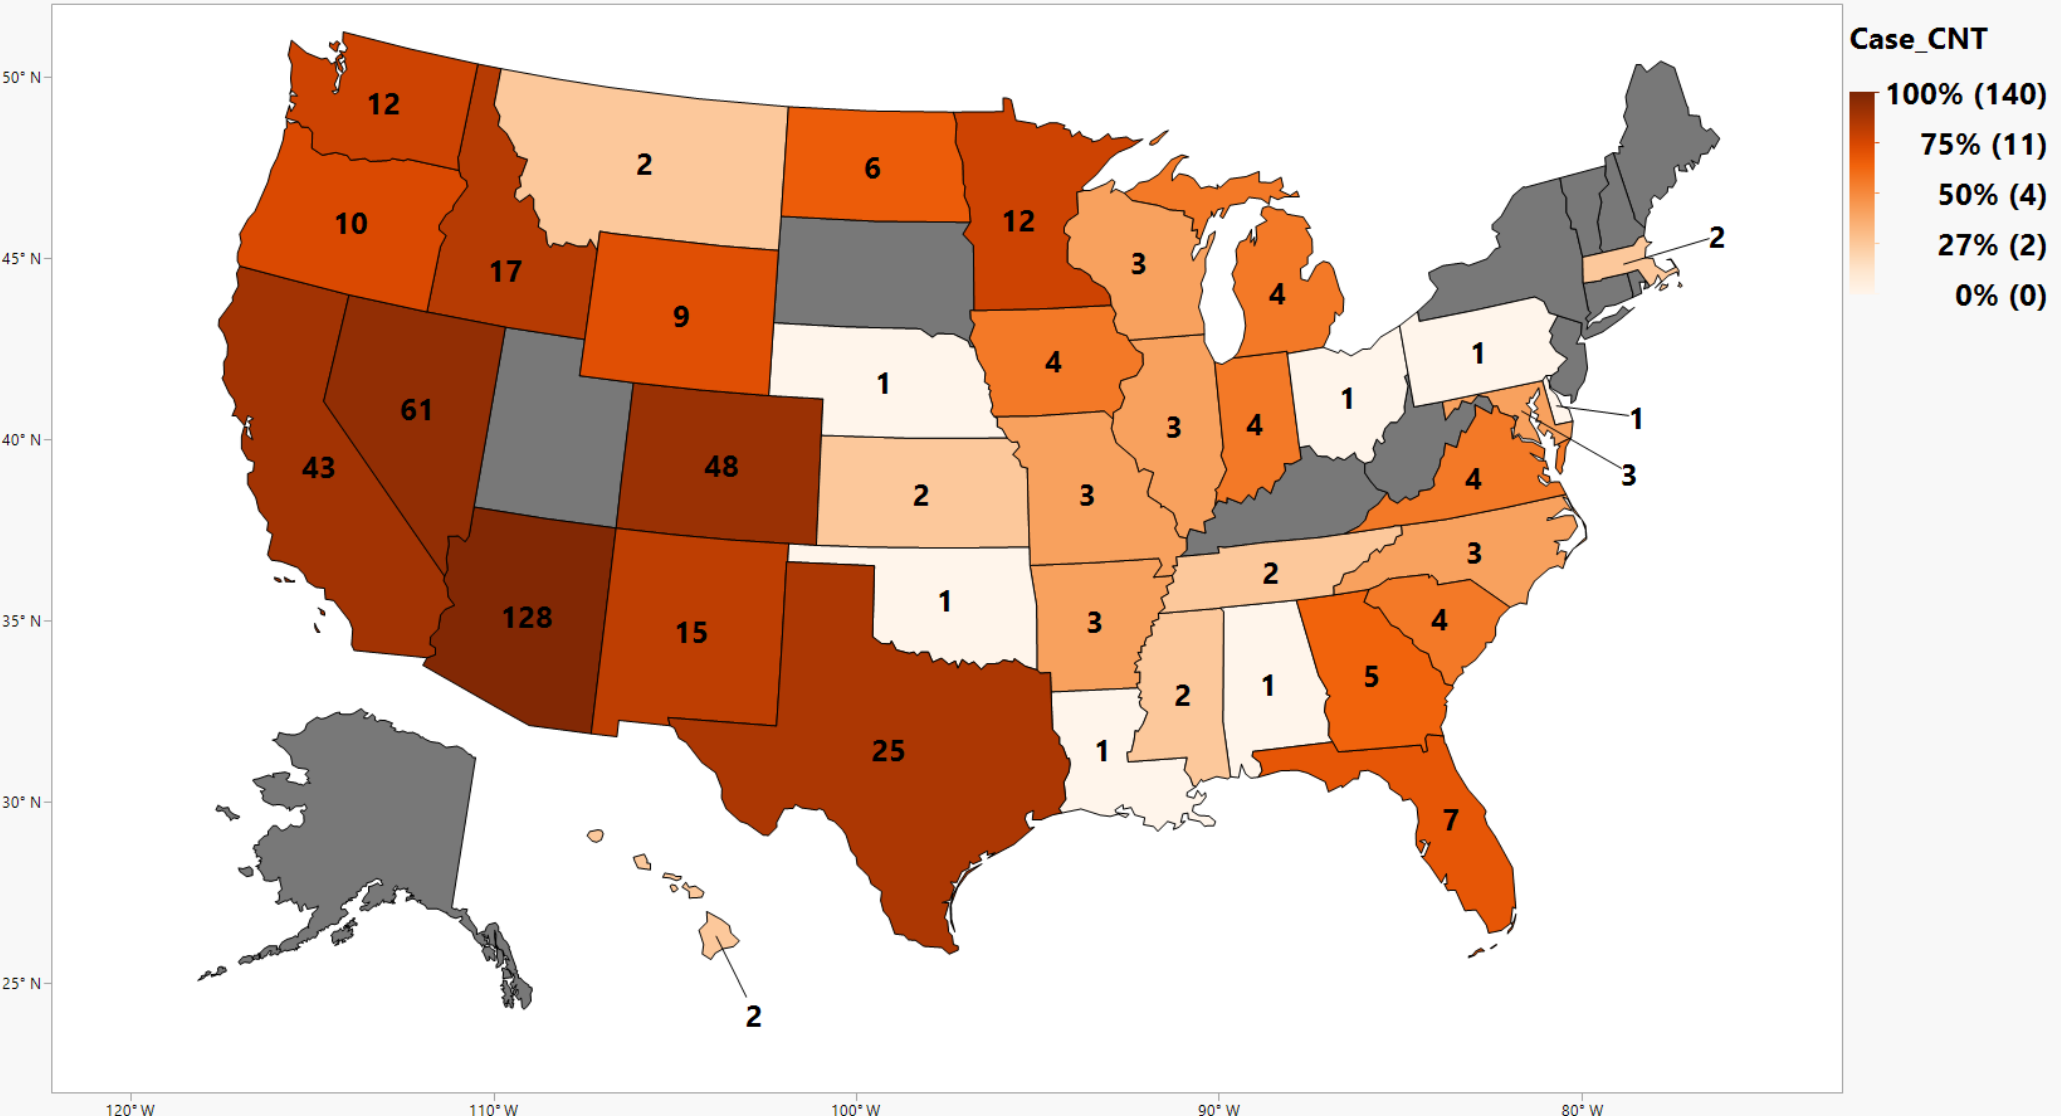

Diagram illustrating rolling period totals:

- Transactions 1 and 2 (12:00 to 12:01) total \$15.00 (indicated by a red bracket and arrow).
- Transactions 3, 4, and 5 (12:07 to 12:10) total \$20.00 (indicated by a green bracket and arrow).
- Transactions 4, 5, and 6 (12:09 to 12:14) total \$17.00 (indicated by a purple bracket and arrow).
- Transactions 5, 6, and 7 (12:10 to 12:35) total \$7.00 (indicated by a blue bracket and arrow).

# Improper Payments: LOCATION

- ▶ Example: Out-of-state SNAP EBT transactions
  - ▶ **636** SNAP recipients spent almost **\$1.4 million** while using their EBT card *exclusively* outside of Utah for **6** consecutive months or longer

# Improper Payments: LOCATION

Source: PA No. 15-04 A Performance Audit of Data Analytics Techniques to Detect SNAP Abuse, OSA 21-22 (January 5, 2016).

# Improper Payments: LOCATION

- ▶ Result:
  - ▶ Little Rock, Arkansas recipient charged with 17 counts of fraud

Source: Photo by Robert Hickerson on Unsplash.

# Improper Payments: AMOUNT

- ▶ Example: Even dollar SNAP EBT transactions
  - ▶ Investigations unit inadvertently limited algorithm to detect only even dollar transactions that were multiples of 10 (e.g., \$50, \$60, etc.)
  - ▶ What about transactions made in rapid succession at the same vendor that total to an even dollar amount?

# Improper Payments: DATES

- ▶ Too early or too late?
- ▶ Example:
  - ▶ Utah Medicaid paid for a prescription *written* 215 days *after* a prescriber's death

# Improper Payments: ELIGIBILITY

- ▶ Example: Unauthorized vendors
  - ▶ Utah Medicaid paid for (1) prescriptions written by *unassigned* prescribers and (2) prescriptions dispensed at *unassigned* pharmacies

# Improper Payments: ELIGIBILITY

# Improper Payments: ELIGIBILITY

- ▶ Unauthorized vendors

- ▶ Example:

- ▶ \$ for Rx written by (1) *sanctioned* & (2) *unenrolled* prescribers

# Improper Payments: ELIGIBILITY

- ▶ Unauthorized vendors

- ▶ Example:

- ▶ \$ for Rx written by (1) *sanctioned* & (2) *unenrolled* prescribers

# Improper Payments: ELIGIBILITY

- ▶ Unauthorized vendors

- ▶ Example:

- ▶ \$ for Rx written by (1) *sanctioned* & (2) *unenrolled* prescribers

# Improper Payments: ELIGIBILITY

- ▶ Unauthorized vendors

- ▶ Example:

- ▶ \$ for Rx written by (1) *sanctioned* & (2) *unenrolled* prescribers

# Improper Payments: CONTRACTS

- ▶ Contractual terms and conditions
- ▶ Example: Corporate Tax Incentive Awards

# Improper Payments: CONTRACTS

- ▶ Contractual terms and conditions
- ▶ Example: Corporate Tax Incentive Awards

# Improper Payments: CONTRACTS

- ▶ Contractual terms and conditions
- ▶ Example: Corporate Tax Incentive Awards
  - ▶ Inappropriate tax incentive award payment despite failure to meet required contractual conditions
  - ▶ Result: H.B. 129 passed 96-0

# Improper Payments: PROCUREMENT

- ▶ Purchasing laws and rules
- ▶ Example: Related-party transactions
  - ▶ Does a common individual fill official roles with both the contracting entity and the vendor?

# Improper Payments: PROCUREMENT

- ▶ Purchasing laws and rules
- ▶ Example: Split purchases
  - ▶ Data summaries *by vendor* (and date?)
- ▶ Example: Bid collusion

Source: *Visualizing Fraud Patterns: Exposing the Hidden Threats*, NASACT Webinar (March 26, 2015).

# Improper Payments: PROCUREMENT

- ▶ Purchasing laws and rules
- ▶ Example: Split purchases
  - ▶ Data summaries *by vendor* (and date?)
- ▶ Example: Bid collusion

Source: *Visualizing Fraud Patterns: Exposing the Hidden Threats*, NASACT Webinar (March 26, 2015).

# Improper Payments: DOCUMENTATION

- ▶ Discrepancies/errors/missing information?
- ▶ Example: Doctored credit card statements

Transaction	Receipt Date	Statement Date	Transaction	Amount
A	04/13	04/31	The Home Depot	\$144.67
B	04/13	04/13	America's Best Vaule	\$111.58
C	06/25	06825	Crystal Inn Cedar	\$83.48

# Improper Payments: DOCUMENTATION

- ▶ Discrepancies/errors/missing information?
- ▶ Example: Doctored credit card statements

Transaction	Receipt Date	Statement Date	Transaction	Amount
A	04/13	04/31	The Home Depot	\$144.67
B	04/13	04/13	America's Best Vaule	\$111.58
C	06/25	06825	Crystal Inn Cedar	\$83.48

- ▶ \$1.2 million embezzlement = 27-month prison sentence

# Improper Payments: RECAP

- ▶ Don't forget to account for multiple indicators!
  - ▶ Frequency + amount
  - ▶ Location + date
  - ▶ Eligibility + documentation

# Available Tools: Considerations

- ▶ Price (e.g., open source vs. licensed software)
- ▶ Programming ability (e.g., point-and-click vs. running scripts)
- ▶ Visualization (e.g., geographic plotting)
- ▶ Data Type (e.g., PDF, CSV, Excel)
  - ▶ Text fields
- ▶ Volume
- ▶ Speed
- ▶ Automation
- ▶ Test Type (e.g., statistical sampling vs. entire universe)

# Techniques: Preliminary Considerations

- ▶ Data analytics is both a science and an art. The key is thinking about data in new ways.

Source: Photo by Sidney Perry on Unsplash.

# Techniques: Preliminary Considerations

- ▶ Understanding the data
  - ▶ Type codes (e.g., final payment, reversed, etc.)
  - ▶ Data dictionaries

# Techniques: Preliminary Considerations

- ▶ Data cleanliness

- ▶ Is related data standardized across related tables?

	Number/Numeric	Date	Text/String
Date Field	42370.00	1/1/2016	January 1, 2016

# Techniques: Preliminary Considerations

- ▶ Data cleanliness

- ▶ Is related data standardized across related tables?

	Number/Numeric	Date	Text/String
Date Field	42370.00	1/1/2016	January 1, 2016
User ID	42114	4/20/2015	042114

# Techniques: Preliminary Considerations

- ▶ Data cleanliness
  - ▶ Leading or trailing spaces?

Name	Date	Amount
Robert Jones	1/1/2016	\$5.00
Robert Jones○	1/1/2016	\$5.00
○Robert Jones	1/1/2016	\$5.00

# Techniques: Preliminary Considerations

- ▶ Applicable criteria
  - ▶ Federal & state laws/regulations
  - ▶ Internal policies
- ▶ Audit objectives

Source: Photo by Claire Anderson on Unsplash.

# Techniques: Benford's Law

- ▶ “Leveraging Data Analytics in Audits and Investigations”  
(August 2016)
  - ▶ Jamie Ralls, CFE, ACDA (Oregon Audits Division)
  - ▶ [https://www.regonline.com/custImages/290000/299144/2016/Aug\\_11\\_Data\\_Analytics.pdf](https://www.regonline.com/custImages/290000/299144/2016/Aug_11_Data_Analytics.pdf)

# Techniques: Benford's Law

# Techniques: Sort Data

- ▶ Purpose:
  - ▶ Prepare data for some other data manipulation

# Techniques: Sort Data

## Louisiana Department of Labor

- Hurricane Katrina
- Address 450 miles away from NOLA
- 51 total debit cards requested
- 27-month jail sentence

Source: *Visualizing Fraud Patterns: Exposing the Hidden Threats*, NASACT Webinar (March 26, 2015).

Narrative Cause
The pilot's failure to maintain directional control on the runway. Factors relating to this accident were the aborted takeoff attempt, the pilot's improper in-flight planni...
The pilot failed to maintain directional control of the airplane and the runway selected resulted in a tailwind condition. Factors associated with the accident were the g...
The failure of the student pilot to maintain adequate ground clearance while hovering.
The failure of the pilot to obtain assistance from the FBO in the form of a marshaller and failure of the pilot to maintain clearance resulting in the on-ground collision w...
The pilot's failure to maintain a proper glidepath during final approach. A factor associated with the accident was soft terrain.
Missing exhaust nozzle bolts for undetermined reasons. A factor was inadequate maintenance inspection of the affected area.
Aircraft directional control not being maintained by the student pilot during the takeoff roll. Factors to the accident were the snow bank and the student pilot's lack of...
the pilot's failure to maintain aircraft control during a landing attempt. A contributing factor was his failure to check the snow conditions in the field before the flight.
The pilot's inadequate compensation for the crosswind conditions, which resulted in the airplane striking a snow bank during the landing flare/touchdown. A factor wa...
The pilot's improper trim setting, which resulted in a runway overrun and impact with a fence.
The pilot's inadequate compensation for the winds. A factor was the windshear.
the failure of the lighting dimmer switch or circuit components for undetermined reasons, which resulted in smoke in the cockpit.
The student pilot's inadequate compensation for a tailwind during final approach and her improper recovery from a bounced landing.
The PIC's failure to follow safe operating procedures for the maintenance of the rotorcraft's external aerial application equipment, resulting in inadvertent activation of...
Improper weather evaluation by both the pilot and pilot/passenger, and the pilot's inadvertent VFR flight into IMC resulting in his spatial disorientation. Factors were t...
the pilot's failure to maintain directional control during the forced landing on a gravel road. Contributing factors were the pilot's delay in using carburetor heat and th...
The pilot's failure to maintain a proper climb rate to VFR conditions on-top.
The pilot's failure to use carburetor heat prior to reducing engine power to idle while operating in serious carburetor icing conditions. Factors include serious carbureto...
the pilot's failure to maintain proper runway alignment during landing. Factors in the accident were the night lighting and the snow bank.
The flight instructor's improper decision to land downwind on the snow and ice covered runway with a tailwind, and his failure to perform a go-around. Factors in the ...
The loss of control on landing due to the student's improper recovery from a bounced landing, and the resulting nose over on the grass runway.
The failure of maintenance personnel to properly reconnect the aircraft's elevator control system, resulting in an in-flight disconnection of the elevator control and jam...
The loss of engine power during a normal descent due to fuel starvation for undetermined reasons.
The pilot's failure to adequately compensate for wind conditions while taxiing the airplane.
The vehicle driver's inadvertent failure to place the column shifter into the parking gear. A factor to the accident was the vehicle.
Fuel exhaustion due to the failure of the instructor to ensure there was sufficient fuel for the flight. Factors were the instructor's inadequate supervision of the student ...
the loss of engine power for undetermined reasons. A contributing factor was the lack of suitable terrain for the forced landing.
fuel exhaustion during approach due to the pilot's failure to refuel.
The pilot's failure to execute the published missed approach procedure. A factor was heavy snowfall during the approach.
the loss of engine power during takeoff resulting from the inadequate engagement of the throttle torque tube rod end into the support bushing by unknown mainten...
One or both of the rear ballonet air relief valves remained in an open position for undetermined reasons, which caused an out-of-balance trim condition; also causal w...
The failure of the pilot to conduct proper preflight planning, resulting in loss of engine power while in cruise flight due to fuel exhaustion, and the subsequent emerge...
Pilot's failure to maintain aircraft control while landing. Factors include a snow covered runway.
the pilot's failure to maintain directional control. Factors were the crosswind, the pilots lack of total experience, and the snow covered terrain adjacent to the runway.
The unsuitable terrain for landing encountered by the pilot. Factors included the loss of power for undetermined reasons and the rough terrain.
the ingestion of ice/slush into both engines, which resulted in dual engine power fluctuations.
The pilot's improper fuel management in cruise flight that resulted in a loss of engine power, because of fuel starvation, and a collision with a fence during the subsequ...
The flight instructor's failure to ensure (supervision) the student had an adequate supply of fuel available, and the student's failure to refuel the aircraft sufficiently resul...
The pilot's inflight decision to continued visual flight into instrument meteorological conditions resulted in the inflight collision with trees. Low ceilings and trees were f...
the loss of power to both engines for undetermined reasons during approach. Contributing factors were the pilot's failure to properly position the fuel selector in acco...

4	444-44-4444	4/4/70	8/25/15
9	999-99-9999	9/9/70	9/14/15
3	333-33-3333	3/3/70	11/24/15
1 ✖	555-55-5555	5/5/70	1/5/16
2	222-22-2222	2/2/70	2/27/16
1	111-11-1111	1/1/70	12/1/16

# Example 2: Medicaid

Table 1: Eligible Prescribers

<u>Name</u>	SSN	<u>DOB</u>
1	111-11-1111	*
2	222-22-2222	2/2/70
3 →	*	3/3/70
4	444-44-4444	4/4/70

Table 2: Death Data

<u>Name</u>	SSN	<u>DOB</u>	DOD
4	444-44-4444	4/4/70	8/25/15
9	999-99-9999	9/9/70	9/14/15
3	333-33-3333	3/3/70	11/24/15
1	555-55-5555	5/5/70	1/5/16
2	222-22-2222	2/2/70	2/27/16
1	111-11-1111	1/1/70	12/1/16

# Example 2: Medicaid

Tables 1 + 2: Eligible Prescribers + Death Data

Name	SSN	DOB	DOD
1	111-11-1111	*	12/1/16
2	222-22-2222	2/2/70	2/27/16
3	*	3/3/70	11/24/15
4	444-44-4444	4/4/70	8/25/15

Table 3: Pharmacy Claims

Prescriber	Rx Date
1	3/2/16
2	3/3/16
3	3/8/16
4	3/4/16
4	3/21/16
1	3/6/16

# Example 2: Medicaid

Final Merged/Joined Table

Name	SSN	DOB	DOD	Rx Date
1	111-11-1111	*	12/1/16	3/2/16
1	111-11-1111	*	12/1/16	3/6/16
2	222-22-2222	2/2/70	2/27/16	3/3/16
3	*	3/3/70	11/24/15	3/8/16
4	444-44-4444	4/4/70	8/25/15	3/4/16
4	444-44-4444	4/4/70	8/25/15	3/21/16

# Example 2: Medicaid

Final Merged/Joined Table

Name	SSN	DOB	DOD	Rx Date	After Death?
1	111-11-1111	*	12/1/16	3/2/16	0
1	111-11-1111	*	12/1/16	3/6/16	0
2	222-22-2222	2/2/70	2/27/16	3/3/16	1
3	*	3/3/70	11/24/15	3/8/16	1
4	444-44-4444	4/4/70	8/25/15	3/4/16	1
4	444-44-4444	4/4/70	8/25/15	3/21/16	1

# Example 2: Medicaid

Final Merged/Joined Table

Name	SSN	DOB	DOD	Rx Date	After Death?
1	111-11-1111	*	12/1/16	3/2/16	0
1	111-11-1111	*	12/1/16	3/6/16	0
2	222-22-2222	2/2/70	2/27/16	3/3/16	1
3	*	3/3/70	11/24/15	3/8/16	1
4	444-44-4444	4/4/70	8/25/15	3/4/16	1
4	444-44-4444	4/4/70	8/25/15	3/21/16	1

# Example 2: Medicaid

## Final Summary

Name	After Death (Sum)
1	0
2	1
3	1
4	2

# SUMMARY

- ▶ Data analytics can help identify improper payments
- ▶ Various data analytics tools are available
- ▶ Data analytics techniques are as varied as you are creative!
