

FEDERAL SPENDING TRANSPARENCY DATA STANDARDS

Pursuant to the *Digital Accountability and Transparency Act of 2014* (DATA Act), Pub. L. No. 113-101, the Office of Management & Budget and the Department of the Treasury established the following set of final Government-wide data standards for Federal funds made available to or expended by Federal agencies and entities receiving Federal funds. Agencies should refer to M-15-12, [Increasing Transparency of Federal Spending by Making Federal Spending Data Accessible, Searchable, and Reliable](#), on the implementation of these data standards. Additional information about the data element standardization process can be found at: <http://fedspendingtransparency.github.io/>. Any future final data standards to be used on USA Spending.gov (or a successor site) will be included on this page.

Account Level Data Standards

This list of data elements describes the appropriations accounts from which agencies fund Federal awards.

The DATA Act requirements for data definitions and reporting financial data did not necessitate developing new definitions, as agencies have collected and reported these data to OMB and Treasury for decades. The definitions for the financial data elements below were written explicitly to inform the public and others not well versed in the nuances of the Federal Government's budgeting and accounting laws, administrative guidance, operational systems, and audited agency financial systems. Agencies will continue to follow the detailed guidance in OMB Circular A-11 and the Treasury Financial Manual (TFM) in recording financial data in their systems and reporting the same to OMB and Treasury. The data standards below are drawn from these more detailed definitions that agencies will continue to follow.

Data Element	Data Definition
Appropriations Account	The basic unit of an appropriation generally reflecting each unnumbered paragraph in an appropriation act. An appropriation account typically encompasses a number of activities or projects and may be subject to restrictions or conditions applicable to only the account, the appropriation act, titles within an appropriation act, other appropriation acts, or the Government as a whole.

	An appropriations account is represented by a TAFS created by Treasury in consultation with OMB. (defined in OMB Circular A-11)
Budget Authority Appropriated	A provision of law (not necessarily in an appropriations act) authorizing an account to incur obligations and to make outlays for a given purpose. Usually, but not always, an appropriation provides budget authority. (defined in OMB Circular A-11)
Object Class	Categories in a classification system that presents obligations by the items or services purchased by the Federal Government. Each specific object class is defined in OMB Circular A-11 § 83.6. (defined in OMB Circular A-11)
Obligation	Obligation means a legally binding agreement that will result in outlays, immediately or in the future. When you place an order, sign a contract, award a grant, purchase a service, or take other actions that require the Government to make payments to the public or from one Government account to another, you incur an obligation. It is a violation of the Antideficiency Act (31 U.S.C. § 1341(a)) to involve the Federal Government in a contract or obligation for payment of money before an appropriation is made, unless authorized by law. This means you cannot incur obligations in a vacuum; you incur an obligation against budget authority in a Treasury account that belongs to your agency. It is a violation of the Antideficiency Act to incur an obligation in an amount greater than the amount available in the Treasury account that is available. This means that the account must have budget authority sufficient to cover the total of such obligations at the time the obligation is incurred. In addition, the obligation you incur must conform to other applicable provisions of law, and you must be able to support the amounts reported by the documentary evidence required by 31 U.S.C. § 1501. Moreover, you are required to maintain certifications and records showing that the amounts have been obligated (31 U.S.C. § 1108). The following subsections provide additional guidance on when to record obligations for the different types of goods and services or the amount. Additional detail is provided in Circular A-11.
Other Budgetary Resources	New borrowing authority, contract authority, and spending authority from offsetting collections provided by Congress in an appropriations act or other legislation, or unobligated balances of

	<p>budgetary resources made available in previous legislation, to incur obligations and to make outlays.</p> <p>(defined in OMB Circular A-11)</p>
Outlay	<p>Payments made to liquidate an obligation (other than the repayment of debt principal or other disbursements that are “means of financing” transactions). Outlays generally are equal to cash disbursements but also are recorded for cash-equivalent transactions, such as the issuance of debentures to pay insurance claims, and in a few cases are recorded on an accrual basis such as interest on public issues of the public debt. Outlays are the measure of Government spending.</p> <p>(defined in OMB Circular A-11)</p>
Program Activity	<p>A specific activity or project as listed in the program and financing schedules of the annual budget of the United States Government.</p> <p>(defined in OMB Circular A-11)</p>
Treasury Account Symbol (excluding sub-account)	<p>Treasury Account Symbol: The account identification codes assigned by the Department of the Treasury to individual appropriation, receipt, or other fund accounts. All financial transactions of the Federal Government are classified by TAS for reporting to the Department of the Treasury and the Office of Management and Budget.</p> <p>(defined in OMB Circular A-11)</p> <p>Treasury Appropriation Fund Symbol: The components of a Treasury Account Symbol – allocation agency, agency, main account, period of availability and availability type – that directly correspond to an appropriations account established by Congress.</p> <p>(defined in OMB Circular A-11)</p>
Unobligated Balance	<p>Unobligated balance means the cumulative amount of budget authority that remains available for obligation under law in unexpired accounts at a point in time. The term “expired balances available for adjustment only” refers to unobligated amounts in expired accounts.</p> <p>Additional detail is provided in Circular A-11.</p>
