

The background is a solid light green color. In the four corners, there are decorative elements consisting of thin, light green lines that resemble circuit traces or stylized tree branches. These lines end in small, empty circles. The lines are more dense in the bottom-left and top-left corners and more sparse in the top-right and bottom-right corners.

The Oregon Audits Blog

Presented by
Bonnie Crawford
OAD Performance Auditor

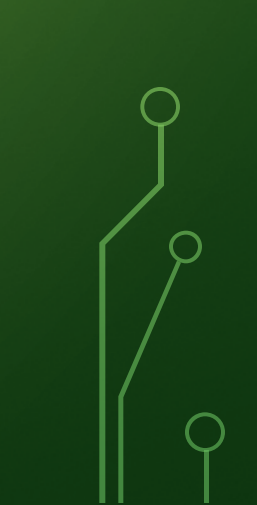

An abstract graphic on the left side of the slide, consisting of a network of thin, light green lines and small circles, resembling a circuit board or a neural network, extending from the top and bottom edges towards the center.

WHY A BLOG?

How do we use the blog?

What are the advantages?

How does this change how we work?

Blog: the Creation

- 1.Relevant to Auditing
- 2.Useful
- 3.Objective

There are Challenges, but...

So, what do people think of the blog?

Oregon Secretary of State Audits Division In our recent IT audit on the Oregon Employment department, we found outdated computer systems used to handle unemployment claims should be replaced and the agency needs to do more work to improve security, processes for changing computer code, and ... more

Oregon Employment Department: Computer Programs for Unemployment Tax Returns and Claims Need Attention

oregonaudits.org • Executive Summary Oregon Employment Department computer programs correctly process most individual unemployment insurance claims and associated employer tax returns, but these outdated computer pro...

Words of Advice, these are

- 
- The background is a solid green color with a gradient. In the corners, there are decorative circuit-like patterns made of thin white lines and small white circles, resembling a stylized electronic board.
- Consider your options
 - Get your people in order
 - Research and plan
 - Set reasonable goals
 - Do (or, do not)
